No 33.

Mysore Commissioner's Office.

(Circular)

To,

The Superintendents  
of Divisions.

Sir,

I have the honor by desire of the Commissioner to forward an Ishtihar in Canarese, and English, holding out encouragement to persons disposed to construct useful public works in the Country; and to request that you will take measures for giving the subject of it the greatest possible publicity in your Division.

The Commissioner takes this opportunity of expressing his wish that you will take every means that may present themselves to you of satisfying yourself that the subjects of Hoazoor Proclamations are duly published by Amildars in their Talukes of which he has great doubts, and two modes of ascertaining this point

suggest themselves, as being within your reach. Namely, when you are moving on circuit, and when Byats or others from other Salukis have occasion to visit your butchery from time to time.

(Instd) A.C.

4<sup>th</sup> August 1841.  
Camp  
Vh.

Resolution:

Whereas it has been represented to the

Commissioners, that there is some general and

dislike on the part of the public to give any

proper encouragement to persons who may feel

disposed to plant coffee, build churches and

to dig wells for public convenience, and that

inconsequence of this notion, persons so disposed

to conduct such charitable, and useful works

have not come forward to do so.

It is hereby made known that the

Commissioners will be glad to give every

possible encouragement to any persons who

may desire to plant coffee, build churches,

and dig wells for public convenience,

and to grant to persons who may do so,

such portions of money as they may require for the

maintenance of their respective charities.

Applications for such being duly made

through the proper instruments and

with their concurrence. As it known.

Approved by the Commissioners 3<sup>rd</sup> Dec

Draft of Rules for Endowments of  
Benjar lands to Chutrum or Moosapurtikhan  
Year Year.

1<sup>st</sup> The spot of ground  
required for a Chutrum  
or Moosapurtikhan including  
its backyard may be in  
Circumference 3000 Yards.  
It may be altogether within  
six Coodos - Whatever  
extent of land may be  
given for this purpose  
should be exempted from  
the payment of the Likhars  
assessment.

2. For the care of this  
building and to keep it  
clean, it is necessary that  
one Bramin and one Hoodra  
servant should be employed  
the first at 3 Rupees, and  
the other 2 Rupees per  
Mensem, which, together

with one Rupee the price of the Oil for lamps makes 6. Rupees per Mensem or 72 Rupees equal to Company Pagodas 25 per Annum. It may be necessary to add 6. Pagodas 5 more on account of loss and other Circumstances such as deficiency in the produce &c. which will make the total of expence per Annum 6. Pagodas. 30 - To meet this demand Benjar lands assessed at 30 Pagodas should be given at a Shrayam Jodee of  $1/10^{th}$ . The two first years free, the third, one Pagoda, the fourth two Pagodas, and the

5<sup>th</sup>

5

5<sup>th</sup> The fixed Jodee of  
3. Pagodas per Annum.  
If the Cost of the Chuttrum  
is under 500 Rupees  
half the above may be  
allowed to pay one man.

3<sup>rd</sup> - The ground required  
for Jopes or groves of  
Trees shall be given  
exempted from demand.  
The Jope should not  
consist of less than 100  
Trees and may probably  
require the employment  
of one Gardener for 10. Years.  
The gardeners pay may  
be fixed at 2 Rupees  
per Mensem. which  
makes 24 Rupees per  
Annum equivalent to  
6. Pagodas 8, adding to  
this, one Pagoda more

for loss on account of  
deficiency in the produce  
the forms a total of 9  
Pagodas, for which land  
should be given on  
Trayem Jodee as above,  
but after 10 years to pay  
half Candorem and the  
Taxes thrown open to the  
public.

4<sup>th</sup> - The extent of land  
required to make a <sup>+</sup>Go<sup>+</sup>sta  
and to plant a few trees  
in its vicinity should  
be given free of tax -  
One man will be quite  
sufficient to take care  
of everything connected  
with the institution, <sup>+</sup>and  
his pay at 2 Ruppes per  
Mensem or 24 Ruppes  
per annum equal to  
8.6. Pagodas which  
together

together with one <sup>6</sup> Pagoda  
as loss see in the produce  
amounts to 6. Pagodas  
9 for which Puzhur  
lands shall be given  
on Trayem Jodee as  
above.

5<sup>th</sup> No land are to  
be made over for the  
foregoing purposes,  
until the works are  
completed.

By Order,

Mysore Comm<sup>rs</sup> Office  
Bangalore.

## Circular.

To,

The Superintendent

of the

Division.

Sir,

I have the honor, by desire of the Commr<sup>y</sup>,  
to transmit for your guidance, Copies in English  
and Canarese of the Revised Rules for Endow-  
ments of Banjar Lands to Chattrams, —  
Musáfirkhānas &c. which you will be good  
enough to substitute for those hitherto in force.

"I have &c."

/Signed/ F. Cunningham.

28<sup>th</sup> July 1846.

Revised Rules for Endowments of Banjar  
Lands to Chattrams or Musáfirkhānas &c.

1<sup>st</sup> The spot of ground required for a Chattram  
or Musáfirkhāna including its backyard,  
may be in circumference 3000 yards. It may  
be altogether within six coodors. Whatever  
extent of land may be given for this purpose,  
should.

should be exempted from the payment of the Sirkar's assessment.

2<sup>nd</sup> For the care of this building and to keep it clean, it is necessary that one Brahmin and one Sudra servant should be employed, the first at 3 Rupees, and the other at 2 Rupees per mensem, which together <sup>with</sup> one Rupee, the price of the oil for lamps, makes 6 Rupees per mensem, or 72 Rupees, equal to Counteroy Pagodas 25 per annum. It may be necessary to add 6. Pagodas 5 more on account of loss and other circumstances such, as deficiency in the produce &c. which will make the total of expense per annum 6. Pagodas 30. To meet this demand, Burjur lands, assessed at 30 6. Pagodas should be given to the Chattrams or Musafirakhana built at an outlay of about 500 Rupees at a Shrayam Jodi of 1-10<sup>th</sup>. The two first years free, the third one pagoda, the fourth two Pagodas, and the fifth the fixed Jodi of 3 Pagodas per annum. If the cost of the Chattrum or Musafirkhana is between 200 and 500 Rupees, half the above may be allowed to pay one man, and no land of any quantity

quantity shall be given to any Chattrum or Musāfir Khāna, the cost of which may be less than 200 Rupees.

3<sup>rd</sup>. The Chattrums and Musāfir Khāna shall be open as to general benefits to all classes and castes, subject of course to such internal arrangement as may be accordant with the habits and usages of the several sects.

4<sup>th</sup>. The ground required for Topes, or groves of trees, shall be given exempted from demand. The Tope should not consist of less than 100 Trees bearing fruit and blossoms, and may probably require the employment of one gardener for 10 years. The gardener's pay may be fixed at 2 Rs. per mensem, which makes 24 Rupees per annum, equivalent to 6 Pagodas, adding to this one Pagoda more, for loss on account of deficiency in the produce of the year, forms a total of 7 Pagodas, for which Bunjur land should be given on Shrayan Jodi as above, but after 10 years to pay half Candayam, and the topes thrown open to the public. No additional land will

will be given if the *Lopes* consist of a greater number than one hundred trees, though the person planting them is at liberty to plant any number he likes in excess of one hundred.

5<sup>th</sup> The extent of land required to make a *Goonta* (well) and to plant some trees in its vicinity, which should be not less than fifty should be given free of tax. One man will be quite sufficient to take care of every thing connected with the Institution, and his pay at 2 *Rupers* per mensem, or 24 *Rupers* per annum is equal to 8 *l.* *Pagodas*, which together with one *Pagoda* as loss &c., in the produce, amounts to *l.* *Pagodas* 9, for which *Bunjur* land shall be given on *Shrayam Jodi* as above.

6<sup>th</sup> For all avenues of trees, planted on the sides of the high roads and throughout the open country consisting of not less than two hundred trees bearing fruit and blossoms and such as afford sufficient shade and useful timber, *Bunjur* land of 12 *Pagodas* shall be given on *Shrayam Jodi*, but after 10 years to pay half *bandayam*, and at this rate *Bunjur* land shall be given in proportion

9

proportion to the number of trees planted as Avenues along the high roads and throughout the open country.

7<sup>th</sup> The condition of the grant of Jodi land for Topes and Avenues of Trees, is that the grantee or his representatives shall at all times preserve the number of Trees from decay and injury, and that any failure thereof will subject the Jodi land to resumption.

8<sup>th</sup> It is also to be distinctly understood that any misappropriation of the produce of Lands granted for Chattrums, Musafir-khānas, Topes, Avenues of Trees and goontahs or any neglect in keeping them in good repair, and ensuring their usefulness to Travellers at all times, shall subject the Jodi lands granted to them to resumption.

9<sup>th</sup> No lands are to be made over for the foregoing purposes, until the works are completed.

10<sup>th</sup> No Jodi land will be given for Chattrums, Musafir-khānas, Topes and Avenues of Trees and goontahs in any other Taluks but in those in which they are situated.

11<sup>th</sup> No Jodi lands will be given to any  
new Topes that may be formed near the  
old ones or Topes already existing, nor to  
Chatrooms or Mussafir Khānas which  
may be built in places where there are  
other Chatrooms or Mussafir Khānas, except  
in large and populous Towns.

22<sup>nd</sup> July 1846.

with a population of 14,959  
or 251 to the square mile.

There are in the village  
3562 houses, 27257 heads of cattle,  
615 carts and 2102 ploughs.  
Also markets are held at any  
village in these two provinces.  
All the marketable produce  
is taken for sale either to  
the daily bazaar at Bawalore  
or to the weekly bazaar held  
at Krishnareddy Bazaar.

4. The rainfall is fairly  
certain averaging 37.20 inches  
and the climate is good above  
the average.

5. The soils are light &  
red and the chief products  
are

- (1) dry, - Ragi, jowary and  
field beans, horse gram  
and oil seeds.
- (2) wet - Rice and sugarcane.
- (3) garden - Potatoes, etc.  
leaf, betelnut & pepper.

6. There are 3 roads lead-  
ing from Bawal, Singapur and  
Bamrighat to the Bawalore

garrison, and another  
road leading from Singapur  
to the Madga Railway station,  
and the Kankarali road  
which

## II. Soil &c.

The collections of 1875-76 and the average for the last five, ten and twenty years are shown below:—

28

| Year.                    | Collections. |
|--------------------------|--------------|
| 1875-76.                 | 27,713.      |
| Average for last 5 years | 28,316       |
| Do. ————— 10 years       | 31,791.      |
| Do. ————— 20—do.         | 30,703.      |

10. The collections which were about 27,700 Rs in 1857-58 rose gradually till they reached the sum of Rs 39,408 in 1866-67 and then went through a corresponding decrease during the last 10 years down to Rs 27,700 in 1875-76, or the figure of twenty years ago. On this point Major Anderson remarks that the abandonment of the Bhattarji system in 1865-66 and the substitution of a cash assessment had the immediate effect of raising the revenue by about 7,000 Rs, but this increase was not maintained owing to the assessment having been

been fixed too high or to the rates having been un-  
equally distributed. The fall in the collections was largest on the rice lands, and to a smaller extent on dry lands, while the garden lands show a gradual increase. The prices of the principal articles which obtained in 1856-57 and during the last 4 years are shown below:-

\* This account is 1st of Rice. 24 by

|         | Seers for 1 Rupee. |      |        | Jaffry per maund. |
|---------|--------------------|------|--------|-------------------|
|         | Rice-              | Rafi | Kulti. |                   |
| 1856-57 | 13                 | 40   | 26     | Rs. 15-0          |
| 1872-73 | 10                 | 47   | 25     | 1-7-8             |
| 1873-74 | 14                 | 38   | 22     | 1-9-0             |
| 1874-75 | 13                 | 37   | 18     | 1-7-7             |
| 1875-76 | 13                 | 27   | 25     | 1-7-5             |

# VI. Realizations of revenue &c.

\* This note is 1875-76!  
presume. See 3. 61. of this  
Stat. Appendix - This is  
I drafted into name case  
I found it

11. The realizations of revenue from each class of the lands in 1875-76 with average rates per acre calculated on the area as ascertained by the Survey are shown below:-

| Description of Land. | Survey acres. | Collections in 1874/75 | average rate. |
|----------------------|---------------|------------------------|---------------|
| Dry crop.            | 12353         | 15907                  | 1-4-7         |
| Rice                 | 2198          | 9083                   | 4-2-1         |
| Garden               | 600           | 2723                   | 4-8-7         |
| Total                | 15151         | 27713                  | 1-13-8        |

12. Under the proposed Settlement, the dry crop lands in the Villages in question are divided into two groups, having regards to their proximity to the roads leading to Banpalore, the maximum rates being Rs 2-12-0 and 2-8-0 respectively.

The same grouping is observed in the case of rice lands also with maximum rates of Rs 8 and 7 1/2.

13. No grouping of Villages is made in the case of gardens, as the assessments on each individual garden is fixed on its own merits. A maximum of Rs 16 for tank irrigated gardens and <sup>of</sup> Rs 9 for those watered by wells is proposed.

14. The grouping of Villages and the maximum rates for each kind of land are shown in the margin.

15. The results of the above proposals on the area at present under occupation, as contrasted with the realizations of 1875-76 are

VII Proposed Settlement.

In an open country where carts can traverse everywhere, too much stress should not be laid upon the advantages arising from proximity to roads. At the present time the difference is small & probably not conspicuous.

proper

letter.

his concurrence in the proposals submitted, but recommends that in future settlements it would be advisable to reduce the rates on garden lands. Mr. Ricketts further presumes that the rates of the present report embrace the question of lands irrigated by wells constructed at the expense of Ryots, and of what are called private enterprise tanks. In conclusion, the Offl. Commissioner remarks that no mention is made as to the Ryots having been furnished at the previous year's jamabandi with a memo. showing the name, number and assessment of their fields according to old accounts and according to the Survey, and states that no such procedure is necessary in the present case, as the old and new rates present no great divergence.

26. The Survey Commissioner hopes that the slight loss of Rs 643 shown above will be

14

21. There is thus a gain under the head of Land Revenue of Rs 1622, but from this must be deducted about Rs 1500 on account of the payments of Village Officers, calculated as shown in the margin, and the sum of Rs 765 will have to be credited to the District Irrigation Funds. The immediate result therefore of the introduction of the Survey rates will be a loss of Rs 643 to Government.

22. Besides the sum of Rs 765 above shown, Rs 206 or the equivalents of the Irrigation cess on minor Inam lands will be credited to the Irrigation Funds.

23. The "Aya" or grain payments made by the Ryots to the Village Officers cannot be estimated with any degree of certainty, but there is no doubt that the discontinuance of these payments would be felt as a great relief by the Ryots.

24. It is stated that the

the rates of assessment proposed fit in with those previously sanctioned for the villages of the settled portion of the Bangalore Taluk which adjoin those under report, and that therefore, they need not now be again discussed.

The steady decrease in the revenue which has taken place during the last 9 years as also the large extents of arable waste lands observed in these villages show, that the present rates have been far too unfavorable, but Major Anderson attributes the first of these to an unequal distribution of the old rates of assessment, and the second, as regards dry lands, to the high value of grazing in the vicinity of Bangalore, and as regards wet lands, to the insufficient capacity of the tanks to irrigate the lands below them.

25. The Commissioner. Kan - XII. Remarks by the  
- didro of Division expresses, & Survey Commission  
his

be at once made up by  
waste lands being taken  
up and that an increase  
of 10 per cent will occur during  
the next 5 years from the  
same cause.

920 p. 100  
S. 100  
is corrected

27. On the question of  
well irrigated lands referred  
to by the Off<sup>ce</sup> Commissioner,  
Colonel Anderson states that  
in the Villages under reports  
water is very close to the  
surface and wells are sunk  
at a very small cost of  
about 15 Rs., and gives  
certain reasons why he con-  
siders it inadvisable to  
free the lands irrigated  
by these wells from extra  
assessment altogether. Para 3  
of Mr. Bowring's proclamation  
No 227 dated 31<sup>st</sup> March/68  
expressly excepts the rates  
for new well lands from  
permanence in any general  
revision of assessment in  
the province. Again under  
the native system of assessment  
it was never the practice  
to exempt new well lands  
permanently, but a kowl

16  
or partial exemption was  
allowed for a certain time  
with liability to full rates  
afterwards. The people generally  
prefer sinking new wells &  
drawing water from it  
for irrigating their lands,  
to taking water from a  
tank and paying water  
cess, not only because in the  
former case, the actual cost  
is less but because the water  
is in their own hands and  
free from extraneous inter-  
ference. If wells were  
made free, there would  
not only be a large sacrifice  
of revenue which is <sup>now</sup> readily  
paid, but the wells would  
compete most formidably  
with the irrigation works  
the receipts from which  
would be most materially  
reduced. The maximum  
rate of Rs 9 proposed for  
well irrigated lands should  
not, however, in the Survey  
Commissioner's opinion, be  
imposed except in cases  
where the water is absolutely  
close to the surface, and  
he

he proposes to request the Superintendent to examine the well assement again with reference to the above principle.

28. In regards to private tanks referred to by the Offl Commissioner, Col. Anderson states that these cases only come up and are disposed of at the introduction of the settlements.

29. Regarding the memo: proposed to be given to every Ryot a year before the settlements, Vide Chief Commissioner's Pro: No. 2868 of 3<sup>rd</sup> June 76. as to give the Ryot time to think whether he should retain his land or give it up, Colonel Anderson states that the Ryots would find this paper of very little use and would naturally go for more information to the Shambhog who would thus have it in their power to mislead them to the most mischievous extent - a power which is seldom accorded to the Shambhog in connection with the settlements. For this reason the detailed rates on fields are kept back as long as possible

I would allow the ryot every opportunity of consulting the Shambhog or any other person and satisfying himself whether the rate proposed is reasonable or not. There is no sufficient reason why the Survey Dept. should keep the detailed rates a secret. The Superintendent of the Survey Dept. has been asked to present a report on the present collection of rates and to the last meeting of the Survey Dept. he has been asked to present a report on the same.

of Rs 2700 in the remaining villages giving a net increase of Rs 1622.

33. A comparison of the maximum and average rates now proposed with those sanctioned for the neighbouring hoblis of the Bangalore taluk is shown below.

|                                | Dry    | Wet    | Garden         |        | Dry            | Wet    | Garden |
|--------------------------------|--------|--------|----------------|--------|----------------|--------|--------|
|                                |        |        | Tank           | Well   |                |        |        |
|                                |        |        | Maximum rates. |        | Average rates. |        |        |
| Old Bangalore                  | 3-0-0  | 10-0-0 | 20-0-0         | 10-0-0 | 15-6           | 3-8-6  | 8-1-7  |

| Begur & Wartur                 | 2-12-0 | 8-0-0  | 16-0-0         | 9-0-0  | 1-5-2          | 4-6-3  | 5-9-6  |

34. On the question of assessing lands irrigated by works sunk by the ryots and by tanks repaired by private enterprise, I beg to refer to paras 4, 9, & 10 of Chief Commr's

The report has not such great  
 as to these officers as is  
 supposed. He must go  
 through the subordinates who  
 all for obvious reasons  
 try to keep him  
 in a state of ignorance  
 that

going to which  
 is which  
 or me  
 own  
 much necessary  
 for going him  
 husband who  
 present, Anderson  
 Mr. Anderson  
 Settlement  
 13.2.77

possible even till a day  
 or two before the actual  
 settlement. Colonel Anderson  
 further observes that the  
 settlement officers would, for  
 his own sake, take care to  
 give the fullest possible  
 information to every Ryot,  
 so as to avoid future diffi-  
 -culties & complications.

Besides no Ryot is  
 finally bound by what  
 takes place at the settlement.  
 He may agree to hold all  
 his survey fields at that  
 time, and can, if he chooses,  
 resign all or any of them  
 between that time and the  
 date fixed for resigning  
 lands, just as he can take  
 up any unoccupied waste  
 lands for the coming year  
 after the settlement in the  
 ordinary manner by "Kabooliat"  
 a liberty which is very com-  
 -monly made use of.

Defter note.

Tanks the lands under  
 which do not belong to  
 any neighbouring village.

30. Out of the 59 Government  
 villages forming the subject  
 of the present proposals, two  
 (viz Ballendur & Wastur) are  
 Amánikere tanks and  
 three

three others are depopulated.

8.

31. It will be seen from the map of the Hoblies accompanying the Survey Sup<sup>ts</sup> report that two small Villages Chalkere & Jantgoudamballi belonging to the Warbur Hobly stand quite isolated and apart from the other Villages in the midst of the Hoskote taluk. The position of these Villages is very inconvenient, which I think can be rectified by providing that these two Villages may be included in the Hoskote Taluk after the settlement of that Taluk.

It may  
be suggested  
by  
yes

2. The rates proposed for the Villages under report are approved of by the Survey Commissioner and the Commissioner of the Division, and having been fixed upon the principle which obtained in the neighbouring Hoblies, may be sanctioned. Under the proposed Settlement there is a decrease of Rs 1078 in Villages and an increase of

Prop. No.  $\frac{7612}{R.33}$  of 1<sup>st</sup> Nov<sup>r</sup>/76.

35. With regard to the question of furnishing the ryots with slips showing the area and a specimen of their holdings as determined by the Survey, a year before the introduction of the settlement, orders have already been passed in the concluding para of Chief Commr's

Prop. No.  $\frac{9723}{256}$  of 16<sup>th</sup> March/76 and again in para 38 of Prop. No.  $\frac{2868}{91}$  dated 3<sup>rd</sup>

June/76. ~~for reasons stated thereon.~~ I do not think the Survey Commissioners' detailed objections, ~~to the said~~ ~~mode of procedure~~ ~~from~~ ~~mentioned~~ in para 29 above,

These orders were passed by Mr. Dargill on verbal representations made to him of the necessity for every Ryot knowing definitely what the particulars of his new holding were.

At his remarks in para 9 & 10 of his letter an ~~error~~ ~~in~~ ~~the~~ ~~British~~ ~~Survey~~ ~~length~~ I think and his objections I make to address a change as that ~~is~~ ~~not~~ ~~shown~~, ~~might~~ ~~be~~ ~~allowed~~, unless his advantage of adopting a different system are

has fully demonstrated  
that they have been by  
any District Officer  
the instances of fraud  
& are certainly not  
numerous and under  
the method of settlement  
and such be entirely  
avoided. As remarked  
by Col. A. the presence of  
a District Officer attached  
to the Settlement  
all doubts, &c. so far  
to remove all grounds  
for subsequent dissatisfaction.

I am  
in the above  
pieces

Vols Revenue Manual  
page 133.

are such as to warrant a  
modification of the orders  
already passed. The question  
is, however, again submitted  
for orders.

36. From para 11 of Mr.  
Mackintosh's report, it  
appears that there are in  
the hobbis under report,  
several ropes of trees  
planted by order of the  
District authorities.

There is another class of trees  
planted by private indi-  
viduals in accordance  
with Chief Commr's Notifica-  
tion of 7<sup>th</sup> June 1866 on land  
granted free of assessment  
for twenty years. The  
Survey Commissioner may be  
requested to state  
how these two kinds of

No 257

Para 30 of C. G. No. 12459  
351  
of 9 March 1877.

\* No 953 of 16 July 1877.

37 As directed in para 36 above, the Survey & Settlement Commissioner was requested to report how the two kinds of topes referred to therein, were dealt with by the Survey Department.

38. The Survey Commissioner forwards report from the Superintendent of Revenue Survey, in which it is stated that during the progress of the settlement which has just been completed, the following kinds of topes were met with:-

- (1) Topes planted by the orders of Government
- (2) Topes presumably planted by the orders of Government the produce of the trees of which it has been customary to sell annually.
- (3) Topes in the possession

of the Pattadars, the produce of the trees of which has never brought any revenue to government and the trees are said to have been planted by the Pattadar or his ancestors.

39. It is reported that topes of the 1<sup>st</sup> and 2<sup>nd</sup> description have been made each into a different Survey number and reserved as government topes. Topes of the 3<sup>rd</sup> description have been confirmed on the existing tenure after due enquiry. It is stated that no topes granted free under the Chief Commissioner's Notification of 7<sup>th</sup> June 1866, were met with in the Shobhis in question.

No.  $\frac{980}{163}$  of 3.12.77

private individuals, the produce of which is enjoyed by Govt and the planter in fixed shares.

43. The former of the Nagar Du submits the following list compiled from the Dy Commr's reports shewing the classes of Topes other than those included in the Survey Report's list.

- Shimoga Dist<sup>ce</sup> -

1. Topes for planting which Inam lands were granted under the revised Rules published on the 28<sup>th</sup> July 1846. vide page 131 of the Compilation of Revenue Rules.
2. Village Topes planted on lands set apart at the time of Survey Settlement.

waste

Under what rules?  
This is reported from Chitaldroog but no  
orders or authorities are quoted.

53. The foregoing  
 communicated to the  
 Commr. Ashtapurna D<sup>n</sup> in  
 this Office Docket No.  $\frac{4131}{48}$   
 of the 29<sup>th</sup> August 1878, with  
 reference to which, the  
 Commr. forwards a state-  
 -ment received from the  
 Dy Commr. Hassan showing  
 the number of Ipes in the  
 Chevroyapatna Taluk as  
 follows

I. Ipes in the possession of  
 the Puttadars, the produce  
 of which has never brought  
 in revenue to Govt, and the  
 trees are said to have been  
 planted by the Puttadars or  
 their ancestors - - - - - 3

II Ipes in Existence  
 from time immemorial,  
 having no claimants,  
 but the produce of which  
 it has not been custom-  
 -ary to sell by Auction 444

54. The Commr. adds that  
 the statement for the  
 Mysore Dist. will be sub-  
 -mitted immediately on

on its receipt from the  
Government to whom another  
reminder has been sent.  
This may be awaited.

53

55. The various kinds  
of Tapes as reported by the  
Comms in the foregoing  
correspondence may be  
classified as follows,  
including those mentioned  
by the Supdt. Rev. Survey.

Another scale

257.

- (1) Tapes planted by the  
orders of Govt.
- (2) Tapes presumably  
planted by the orders  
of Govt., the produce of the  
trees of which it has been  
customary to sell annually.
- (3) Tapes in the possession of  
the Puttadars, the produce  
of the trees of which has  
never brought any  
revenue to Govt., and the  
trees are said to have  
been planted by the  
Puttadars or their ancestors.
- (4) Charitable Tapes planted  
on Govt. land by private  
individual.

waste lands on con-  
dition of taking the  
produce of the trees and  
paying Jodi to Govt.

- (10) Trees planted under  
the Chippewas' notifi-  
cation of 7<sup>th</sup> June 1866.

Mr. David Smith.

- (11) Trees in existence  
from time immemorial  
having no claimant, but  
the produce of which it  
has ~~been~~ not been  
customary to sell  
by auction.

- (12) Village Trees planted  
according to the recent  
orders of Govt. The trees  
are in most instances  
still very young and  
are not bearing fruit.

56. The above list  
may be communicated  
to the Survey Comr.  
who may be re-  
quested to issue the  
necessary instructions  
for treatment of  
trees found during

~~30~~ 29

Read CC's pro? No 5027 R 12 vol.

21 Aug 1877 calling for a list  
of all classes of existing  
tapes

Read also the several replies  
~~received~~ to the above order, re-  
ceived.

It is a matter of con-  
siderable importance for the  
comfort of travellers as well  
as for greater production of  
timber and for it to encourage  
liberally the planting and  
conservation of tapes in this  
Province. Much has been  
done and the Govt has  
ever been ready with liberal  
grants of land, on easy &  
secure tenure, to those who  
planted and maintained  
tapes for the ~~for~~ public good  
in the Revenue settlements.

now progressing it is highly desirable that land of this nature should be secured for the purposes to which it has been assigned and also that both with a view to encouragement for the future & reward for the past holders of topes should be ~~leniently~~ liberally dealt with and topes be lowly assessed so long as they remain in good condition.

To this end a classified list of all existing topes has been made out and is here recapitulated

~~On planting and preservation~~  
of topes

- I. Public Topes
1. Government Topes
    - (a) Topes planted by order of Government
    - (b) Topes presumably planted by order of Govt. in which it is customary to sell produce of trees annually
    - (c) Topes in existence from time immemorial to which there is no claimant but the produce of which is not sold.
  2. Charitable Topes
    - (a) Topes planted on Govt.

30  
of whomever enjoys the fruit, he  
wld be at liberty to cut them  
down. Sup<sup>t</sup> of Survey may be  
asked how he has dealt with  
any like this and asked to  
offer an opinion thro' the S<sup>t</sup>  
Com<sup>rs</sup>. Whether such lands shd  
not be set apart as topes for  
shade & ornament under sec 32  
of the act and a record made  
that so and so may take the  
produce - not the timber - this  
course shd ensure maintenance  
of the tope & by being liberal to  
the planter wld induce others  
to plant on Govt land -

Private topes of the first class  
on kandyagum land will have  
to depend upon the self interest  
of the owner for their preservation

M. J. L.  
1/2.

## I Public Topes (Continued)

Govt. land of private individuals the produce of which is enjoyed by the general public.

(b) Topes for planting which mandamus given under the revised rules of 23 July 1846.

(c) Village topes for these land is assigned at the survey settle<sup>t</sup> or by the village.

## II Private Topes.

(a) Topes in the possession of Patadars the trees have been planted by them or their ancestors.

(b) Topes planted on khaul tenure under Cl. No. 4 of 7 June 1866.

(c) Topes in vaudam topes planted on Govt. land by private individuals the produce of which is enjoyed by Govt. & the planter in fixed shares.

(d) Topes planted by private persons on Govt. waste land on condition of taking the produce of the trees & paying jod to Govt.

(e) Topes planted by private persons on Govt. land the produce of which is enjoyed by the planter free of assessment.

With regard to public topes it will be sufficient for the Settlement Officer.

to assign them for that sp.  
purpose under sec 32 of the  
survey act which will guard  
against their passing into  
private hands, or being cut  
down.

The right to private tipes will  
be strictly respected and the  
settlement affords a convenient  
time for bringing to light cases  
of neglect to maintain tipes  
for which held on preferential  
terms, or other abuse of the  
terms of the cool tenure in  
C's not: of 7 June 1866.

The class of tipes reported  
in the Chitaldroog Dist: held  
for podi payment is not known  
to me. It can maybe asked  
if they have been settled, as  
inams & under what orders  
they were granted.

The last class of private tipes  
appears to be unauthorized but  
it would not be politic to re-  
turn them. If the Survey  
~~assessed~~  
~~classified~~ them as dry land  
and left them in the hands

On planting and preservation  
of trees.

REVENUE.

READ—

Memo No. 953, dated 16th July 1877, from the Survey and Settlement Commissioner, submitting letter from the Superintendent of Revenue Survey, reporting on the different kinds of topes met with and disposed of during the settlement of the Begur and Vartur hoblis of the Bangalore Taluk.

From the Superintendent, Revenue Survey, Mysore, To the Survey and Settlement Commissioner of Mysore, No. 536, dated Bangalore, 30th June 1877.

I have the honor, with reference to your memo No. 526 of the 14th April 1877 under Chief Commissioner's order No. 12459—Rev. 351 of the 9th March 1877, on the settlement of 59 villages of the Bangalore Taluk, to report that, during the progress of the settlement which has just been completed, the following kinds of topes were met with and disposed of in the manner below shewn:—

- 1st. Topes planted by the orders of Government.
- 2nd. Topes presumably planted by the orders of Government, the produce of the trees of which it has been customary to sell annually.
- 3rd. Topes in the possession of pattadars, the produce of the trees any revenue to Government, and the trees are said to have been never brought in by the pattadar or his ancestors.

Topes of the 1st and 2nd description as above have been made each into a separate and distinct survey number and reserved as Government topes.

Topes of the 3rd description have been confirmed on the existing tenure after due enquiry.

2. No topes granted free under the Chief Commissioner's Notification dated 7th June 1866 were met with.

No. 5027—REV. 12, DATED BANGALORE, 21ST AUGUST 1877.

ORDER THEREON.—Ordered to be communicated to the Commissioners of Divisions, with a request that they will report, after reference to the district officers, whether the list furnished by the Superintendent of Revenue Survey comprises all classes of existing topes.

# Sketch showing the different kinds of topsoil in existence in the Hassan District.

| Topsoil     | Topsoil planted by the orders of Government, the produce of which has been sold annually. | Topsoil in the possession of proprietors the produce of the sales of which has been sold in previous years, and the sales are said to have been planted by the proprietors or their successors. | Topsoil in existence from the time immemorial having no claimant, but the produce of which is sold by the Customary auctioneer. |
